

# **FREE MONEY**

Definition: Money given to you without having to work for it.

Each pay period your employer will deposit money into your 401(k) plan over and above your hourly salary.

Some companies will not give you money if you are not contributing to your 401(k) plan.

Some companies will give you a minimum (2-4%) if you're not contributing.

Some companies will give you a minimum plus an additional percentage if you contribute at least 6 percent.

Since each company's plan is different, you must read your plan and understand **HOW YOU CAN EARN FREE MONEY**.
